

PASSENGERS SEATS

10 YEARS OF EXPERTISE AND EXPERIENCE

- Seat maintenance services from dedicated to turnkey solution
- Seat covers production and renovation,
- Seat covers replacement on line and in workshop

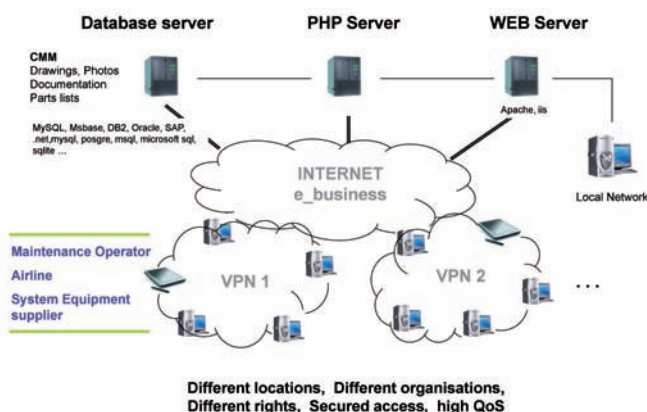

SEAT MAINTENANCE SERVICES

For the last ten years, the AERTEC group developed its seat maintenance know-how close to its customers to meet their expectations. We set-up a cooperation agreement with agreed and measurable commitments that covers partially or totally all your seat maintenance requirements and strategy.

A panel of services :

- With our **Consulting team**, we propose you the way to optimize your integrated seat maintenance process by taking into account the equipment fleet size, your facility capacity, your maintenance team skill level, the tooling means and the key indicators you want to manage.
- With the **Interactive Maintenance Software "MAGE"** deployment and a set of CMM **maintenance engineering services**, we set-up a cooperation to improve the maintenance operations traceability, reduce operators errors, eliminate paper with the electronic CMM, give you a tool to reduce the Inventory Turn Over and measure the ROE (Return Of Experience).
- With the **Turnkey solution**, we agree to commit on a cooperation agreement of your seat fleet maintenance in your HUB : Local team management, Seat handling and logistics, warehouse management, Turn Around Time (TAT) targets, quality criterias, daily and monthly reporting.
