

CARGO CONTAINERS

10 YEARS OF EXPERTISE AND EXPERIENCE

- Containers maintenance turnkey services
- Cooperation with the Interactive Maintenance Software "MAGE"

For the last 10 years, the AERTEC group developed its equipment maintenance know-how close to its customers to meet their expectations.

TURNKEY MAINTENANCE SERVICES

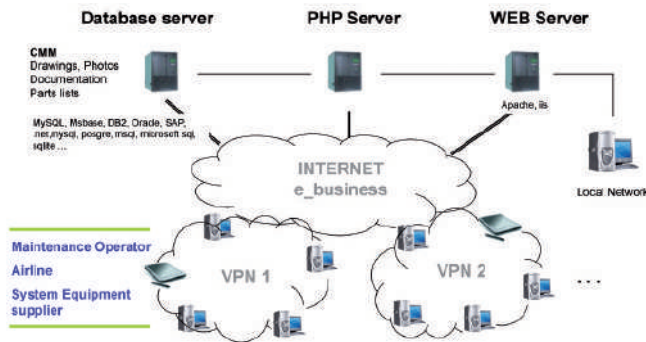

With the **Turnkey solution**, we agree to commit on a cooperation agreement to maintain your containers fleet, in your HUB or in our facility, bringing you our back-ground with equipment manufacturers :

- Containers logistics and handling between the Airport and the workshop
- Spare parts management with the equipment manufacturer (mechanical and soft parts)
- Expertise, change and repair of parts
- Implementation of a full RFID solution
- Life Cycle Cost management, Return On Experience,
- Reporting and traceability management
- Five days Turn Around Time

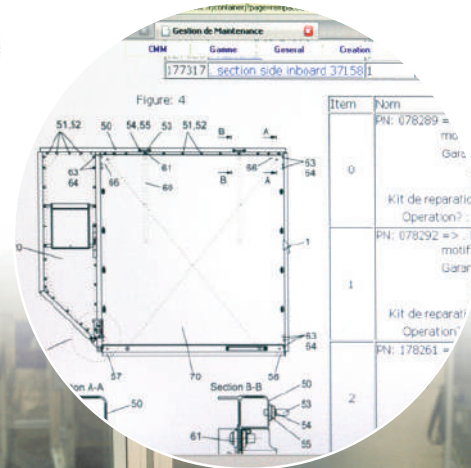

RFID

INTERACTIVE MAINTENANCE SOFTWARE "MAGE"

Different locations, Different organisations,
Different rights, Secured access, high GoS

With the **Interactive Maintenance Software "MAGE"** deployment and a set of **CMM maintenance engineering services**, we set-up a cooperation to improve the maintenance operations traceability, reduce operators errors, eliminate paper with the electronic CMM, give you a tool to reduce the Inventory Turn Over and measure the ROE (Return Of Experience) on your container fleet.
